TO WHOM IT MAY CONCERN

Re: Leamore Construction Limited

Kenny Lyons & Associates are a registered Architectural Practice based in Tullamore and specialise in small to medium sized projects in the Public and Education Sector.

Leamore Construction has completed the construction of a number of our building projects over the past few years most notably the following;

- | | |
|---|----------------|
| 1) Refurbishment of the banking hall at Tullamore Credit Union- | December 2008 |
| 2) New Ballcourts and groundwork's at Gaeilscoil Eiscir Riada- | September 2009 |
| 3) Refurbishment of the toilet blocks in Rath National School- | October 2009 |
| 4) New Community Resource Centre at Arden View- | December 2009 |
| 5) Special needs extension to Rath National School- | August 2010 |

All of these projects were tendered publicly and Leamore Construction was the lowest tendering contractor on all of the projects. We can confirm that each project was completed by Leamore Construction on time and within budget.

Kenny Lyons & Associates have found Leamore Construction to be an organised and efficient firm and on each project Leamore Construction ensured that one of the directors of the company were directly involved with the management of the project.

At all times Leamore Construction take great pride in their work and the directors are always striving to develop the firm's reputation as a Quality Building Contracting company. Leamore Construction is an effective, efficient, cooperative and reliable Company and we would have no hesitation in recommending them for similar building projects in the future.

Signed,

Peter Lyons B.Arch. M.R.I.A.I.
