

To Whom It May Concern:

24th February 2010

Leamore Construction has recently been employed by OCC on a number of projects. They initially had to pre-qualify and subsequently were awarded the contract as the most competitive tender. They have also prequalified for our Small Works Panel.

Leamore Construction were appointed contractor for an 8 unit Social Housing Project at Fair Green, Kilcormac. The project was valued at €1.2m and it came in on budget and was delivered on time. The working relationship with this Council was very good and the works were carried out most efficiently to the complete satisfaction of this Council.

Leamore Construction have also carried out a number of minor projects for this Council including Millbrook park Halting Site, where minor improvements were necessary, and also repairs to the roof of the Tullamore Library.

I would have no hesitation in recommending Leamore Construction for any building works.

Yours Faithfully

Martin Quinn.
Senior Executive Engineer
Housing
