Leamore Construction

To whom it concerns,

**RE: RECENT PROJECTS - AIT LECTURE THEATRE ATHLONE AND COVIDIED R+D
OFFICE REFURB ATHLONE.**

Further to the above projects recently completed by Leamore Construction, we wish to confirm that these projects were carried out and finished to the highest standards and within budget and programme.

We found Leamore Construction to be competent, hardworking, trustworthy and willing to adapt to changes during the execution of these fit out contracts. These contracts required out of normal working times, overtime and weekend working in order to comply with client and contract requirements.

We would have no hesitation in recommending Leamore Construction and in particular Mr. Ger McIntyre of Leamore Construction, for any similar future fit out works.

Trusting you find this in order, however, should you have any queries please contact us.

Yours sincerely,

John Duncan
